ABOUT US

OUR MISSION

Riverview Adult Day Health Center is a safe place providing accredited and licensed services for adults and offering compassionate care on a social, physical, emotional and spiritual basis.

OUR VISION

To be the preeminent provider shaping the future of Adult Day Health Services.

Riverview Adult Day Health Center serves seniors and special needs adults in the area who cannot be safely left alone, who demonstrate a decline in cognitive functioning, or who just need socialization and to connect more with others. We offer respite for full-time caregivers, and help individuals to continue living at home.

As the only adult day health center in the area, guests can chat with friends during a fun-filled day, while a licensed and certified staff monitors health conditions. Riverview ADHC also acts as a liaison between guest/caregiver and physician or other health professionals. Guests enjoy regular daily activities as well as special events, all within a loving, family atmosphere.

ADDITIONAL INFO

- Riverview ADHC accepts Veterans Benefits, Medicaid Waiver, and the Choice Program.
- Guest to staff ratio is 4 to 1.
- Accredited by the Indiana Association of Adult Day Services.
- Riverview ADHC has monthly visits from the Potawatomi Zoo, Elkhart Public Library and others.
